

## **Deep Clean Chain Instructions**

### **Things you'll need**

- Chain
- Disposable Gloves - for first stage mainly
- 3 Containers - Glass or Plastic - 2 with lids
- White Spirit or Petrol
- Water based Degreaser
- Isopropyl Alcohol (not essential)
- 3 rags or Large Tissue Paper (kitchen roll)

### **Step 1**

Place chain into a container, pour white spirit/petrol to just cover the chain.

Screw the lid on tight and shake for 30 seconds.

Leave to sit for an hour (or longer if preferred).

Empty the dirty liquid out of the container and repeat with fresh White Spirit until the chain is clean and liquid going in the container is free from contaminants, ie doesn't discolour.

Remove the chain and wipe with one of the rags or tissue paper.

### **Step 2**

Place the chain into a fresh container and add degreaser.

Shake well and leave to sit for 5 mins.

Empty the contents and smell the chain - if you can still smell White Spirit/ Petrol, then repeat until that smell has gone from the chain.

Tip away contents, remove chain and white with a new rag.

### **Step 3**

Thoroughly since the chain under a tap making sure to agitate the links to work the water into the chain and remove the degreaser that is present for the previous stage.

Carry this on until there is no smell of the degreaser left on the chain.

Wipe with a new rag.

### **Step 4**

Place chain into a new container, cover with the alcohol agitate the chain so as to work the alcohol into the links.

Leave for 5-10 mins, then remove and wipe down.

Either hang or leave the chain on a clean dry surface and allow to completely dry - this normally takes 10-20 mins to be sure.
